FOR IMMEDIATE RELEASE

Late Night Lane Closures on Ventura Freeway (US 101) for Pavement Rehabilitation

LOS ANGELES – The California Department of Transportation (Caltrans) will reduce lanes and close ramps on north- and southbound US 101 to install new pre-cast concrete slabs, repave lanes, and install new guardrail, and hardscaping Tuesday, May 24 to Thursday, May 26, 10 p.m. to 6 a.m. Motorists should expect delays and consider alternate routes. No work will occur Friday, May 27 to Sunday, May 30.

Lane and ramp closures will occur at the following locations:

- Northbound US 101 from Haskell Avenue to Topanga Canyon Boulevard (SR-27) on- and off-ramps
- Northbound US 101 from Balboa Road and Reseda Boulevard
- Northbound US 101 from Hayvenhurst Avenue to SR-27
- Northbound US 101 from Tujunga Avenue to I-405
- Southbound US 101 from Las Virgenes Road to Calabasas Parkway

The pavement on north- and southbound US 101, connectors, and ramps will be rehabilitated by using rubberized hot mix asphalt, Portland concrete cement, and pre-cast concrete slabs. The existing metal beam guardrail (metal and wood barriers) will also be replaced to enhance safety.

This \$62 million contract was awarded to Myers and Sons Construction, LP of Sacramento, California. The project is funded by the State Highway Operation and Protection Program (SHOPP). The project is expected to finish in fall 2016.

Remember to Be Work Zone Alert. The CHP will be on duty.
